

Vertical Files

Vertical Files hold a wide variety of information types related to the topic of the files: news clippings, small booklets, some manuscripts material, post cards, legal or governmental forms, etc. They vary widely. Some have only one small newspaper clipping; others contain a mixture of many types of information. In all cases, the contents do not constitute enough information to warrant a boxed collection, but they contain too much to throw away.

Account books – Badger Farm, 1909

Account books – W.P. Sawyer, 1953

***Agriculture** includes materials on agricultural issues in general. For specific businesses that work with agricultural products, see **Businesses—Agriculture**. For specific farms, see **Businesses – Farms**.*
